PEACE OF MIND

In Radiation Protection

INFAB's R&D team continually strives to safeguard healthcare professionals from ionizing scatter radiation through providing top-of-the-line protective gear. Our commitment is to give healthcare professionals the assurance and peace of mind that comes from using our reliable and expertly crafted products.

Empowering Customers with Knowledge

INFAB is dedicated to providing our customers with accurate and comprehensive information about the materials and technology used in their radiation protective gear. We believe that this knowledge is crucial for making informed purchasing decisions and for understanding the level of protection being used.

Expert Support for Radiation Protection

Our dedicated global team of radiation protection experts is ready to provide friendly and efficient support throughout your experience with us. With years of industry experience, our specialists are well-equipped to assist with any questions you may have.

REVOLUTION APRONS

Our aprons are designed with the latest technology to protect you from radiation exposure and made from high-quality materials to ensure maximum durability and comfort.

Our Revolution line offers you a variety of styles and protection levels. You can add logos, monograms and design patterns to make it your own and reflect your unique style.

PARTIAL OVERLAP:

Full protection in each panel and double protection where the panels overlap in the front.

COLOR BLOCK DESIGN:

Exclusive Revolution color combination. Customization options available.

REVOLUTION FABRIC:

Lightweight, waterproof, abrasion resistant, flame resistant, and bacterial resistant.

SMART TRACK:

Web-based garment inspection tracking system.

All aprons are available in KIARMOR Bi-Layer Lead-Free and Lightweight Lead. KIARMOR is the only lead-free material that passes all three universally recognized testing procedures: ASTM F3094-14, IEC 61331-1:2014, DIN 6857-1.

RADIATION PROTECTION

SCATTER ARMOR

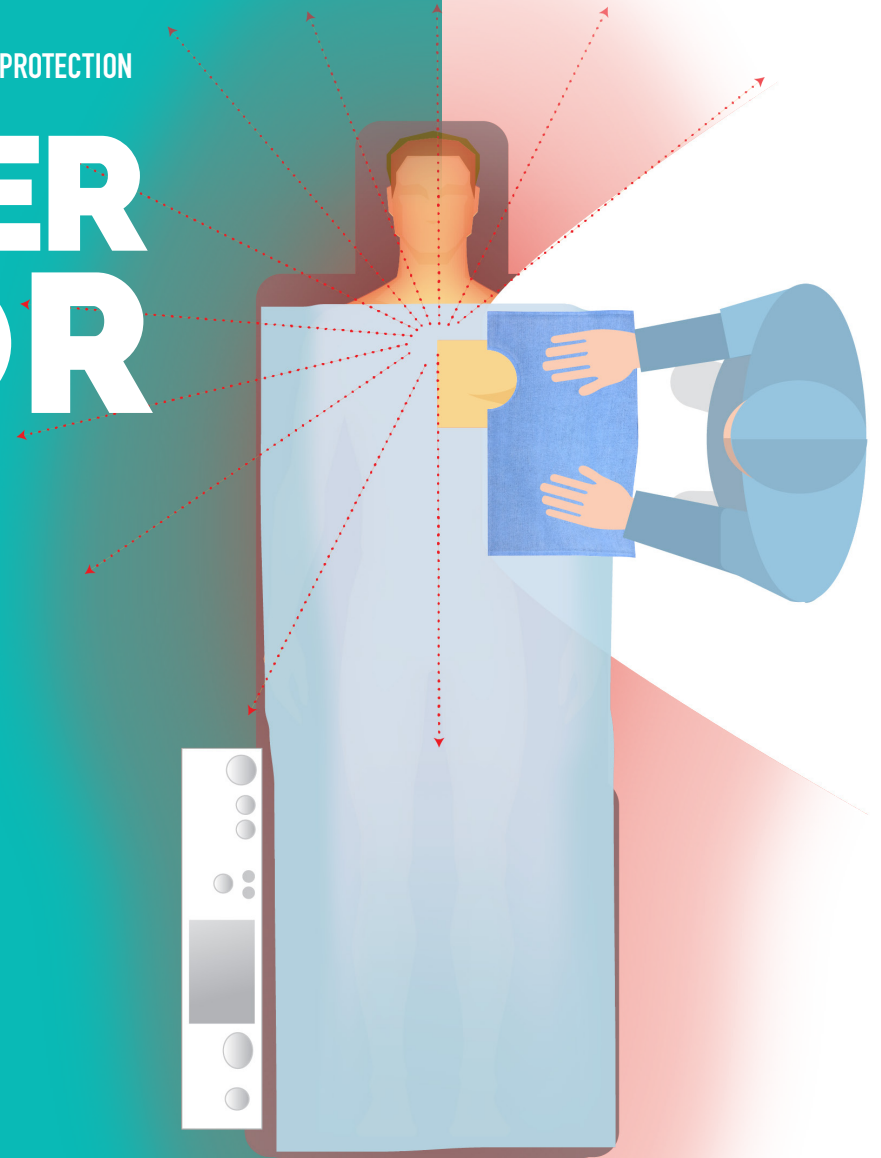

Shields & Drapes for Interventional Procedures

Prolonged low-dose exposure to scatter radiation can increase cancer risk for healthcare professionals. Scatter Armor shields and drapes reduce this risk by minimizing overall exposure.

“The scattered radiation from the patient comprises the main source of radiation dose to staff.”

IAEA
International Atomic Energy Agency

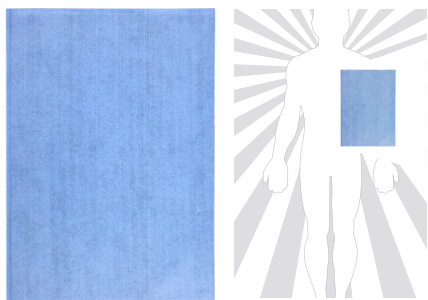

Scatter Protection

Scatter Armor Shields provide scatter radiation protection for radial and many other types of procedures. KIARMOR Bi-Layer is the most protective core material against scatter radiation.

SA-MPS Scatter Armor Multipurpose Shield

Transradial Access: Left and Right Radial, Shunt, Biliary Drainage, Spinal, Fibroid Embolization.

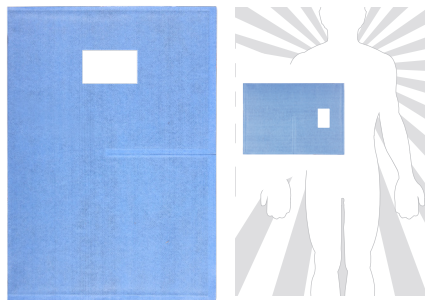

Absorbent

Scatter Armor Shields utilize the highest absorbency covering material in the industry, critical in heavy fluid situations.

SA-MPF Scatter Armor Multipurpose Shield with Fenestration

Needle Biopsy or Puncture Procedures.

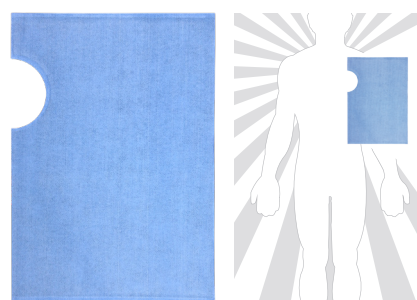

Flexible

Scatter Armor Shields easily mold to the patient's body for ease of use and maximum protection.

SA-EP Scatter Armor EP Shield

Subclavian Access: Bi-Ventricular Pacemaker Implants, ICS procedures, and Bi-Ventricular Pacing.

One-time Use

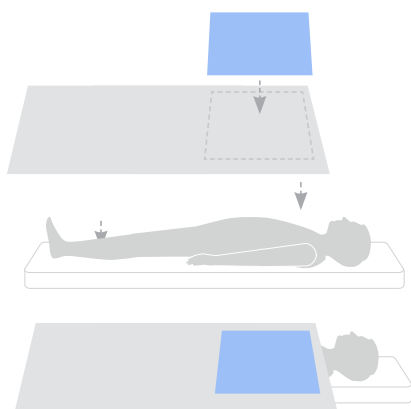

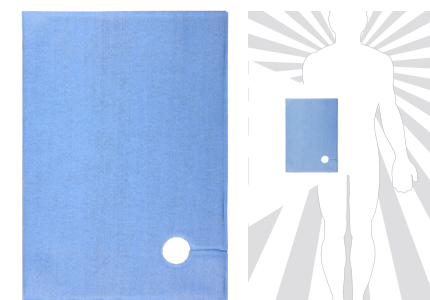

Scatter Armor Shields are lead-free and disposable.

Sterile

Packaged individually in sterile packets.

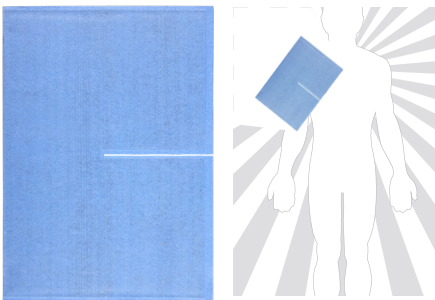

SA-AGS Scatter Armor Angiography Shield

Transfemoral Access: Angiography, Coronary Catheterization.

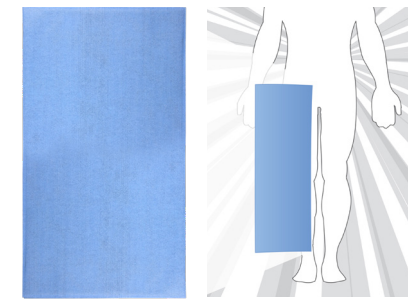

SA-BSS Scatter Armor Biliary Split Shield

Biopsy Procedures, Transjugular Intrahepatic Portosystemic Shunt (TIPS).

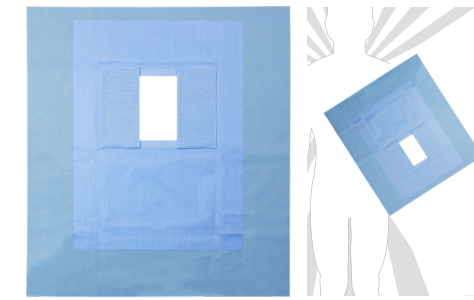

SA-PER Scatter Armor Peripheral Shield

Peripheral procedures where the access is through the femoral artery.

SA-DDD Scatter Armor Dialysis Drape

Dialysis Access and Declothing Procedures.

LOCKERS

Security + Protection

Our Revolution Lockers combine protection and security for your garments. They include a passcode encrypted keypad and durable frame for secure storage. The battery-operated passcode system allows for up to 3 admin codes.
